DARSHAN GHATAGE

React.js / Next.js Developer | Frontend Engineer
+91-8180847887 | darshanghatge@gmail.com | linkedin.com/in/darshan1909/

PROFESSIONAL SUMMARY

Frontend Developer with hands-on experience building responsive, component-based UIs in React.js, Next.js, and TypeScript, integrated with Spring Boot and Node.js REST APIs, GraphQL, and AWS (EC2, S3, IAM). Currently building a multi-tenant education ERP (frontend and backend) and previously built role-based dashboards and cut deployment time by 60% at ClickCrawl Media. B.E. in Computer Science graduate (June 2026) and published researcher (INCOFT-2025), seeking a React Developer role.

TECHNICAL SKILLS

Frontend: React.js, Next.js 14, TypeScript, JSX, React Hooks, Redux Toolkit, TanStack React Query, React Hook Form, Zod, Tailwind CSS, Bootstrap, Responsive Web Design, Cross-Browser Compatibility

Languages: JavaScript, TypeScript, Java, Python, SQL, HTML5, CSS3

Backend & APIs: Spring Boot, Node.js, Express.js, RESTful APIs, GraphQL (Apollo), Socket.IO, JWT and Cookie-Based Authentication, Google OAuth, RBAC, Multi-Tenant Architecture, PayU Payment Integration, MVC Architecture

Cloud & DevOps: AWS EC2, AWS S3, IAM, VPC, CI/CD (GitHub Actions, Azure Pipelines), Docker, Nginx, Linux, Git

Databases: PostgreSQL, MySQL, MongoDB, Database Indexing & Query Optimization

Tools & Testing: VS Code, IntelliJ IDEA, Postman, Maven, Vitest, ESLint, Prettier, Husky

Spoken Languages: English, Hindi, Marathi, Kannada

PROFESSIONAL EXPERIENCE

Full Stack Web Developer Intern **Aug 2026 – Present**

Seratek System Pvt Ltd

Educational ERP Platform (Next.js, React, TypeScript, Node.js, MongoDB, REST, GraphQL, Socket.IO)

- Building a multi-tenant Educational ERP platform covering admissions, academics, examination, fees, HR, and feedback for admin, staff, candidate, and student roles, working across the frontend and backend.
- Developed the frontend in Next.js 14 (App Router), React 18, and TypeScript with role- and permission-driven menus, tabs, and client-side access guards across all ERP modules.
- Managed server state with TanStack React Query and multi-step draft flows with Redux Toolkit; built validated forms with React Hook Form and Zod; styled with Tailwind CSS.
- Implemented cookie-based session authentication (httpOnly), Google OAuth, and OTP login flows, with session invalidation on password reset and login from another device.
- Built and integrated REST, GraphQL (Apollo), and Socket.IO APIs for CRUD operations, master data, real-time notifications, and audit events.
- Developed backend services with host-based multi-tenancy, role and permission authorization (read, write, modify, delete), and server-side menu filtering.
- Implemented core business logic for admission and merit flows, fee structures and collection, examination ordinance and results, and leave and attendance rules.
- Modeled MongoDB data with soft deletes and referential integrity checks, and handled file upload and retrieval endpoints.
- Integrated PayU online payments (initiate, hash, browser post, status callback, redirect) for application, fee, and exam payments, including refunds.
- Delivered PDF and Excel exports, public receipt and hall-ticket verification, and institute-level branding.
- Maintained code quality with Vitest, TypeScript checks, ESLint, Husky pre-commit hooks, and Azure Pipelines CI/CD deployment.

Full Stack Java Developer Intern (React Frontend Focus) **Jan 2026 – Jun 2026**

ClickCrawl Media Private Limited, Hubli

- Built reusable React.js components and role-based dashboard views for a multi-tenant Placement & Alumni Management System, integrated with a Spring Boot REST API following MVC design principles.
- Implemented client-side authentication flows in React, connecting JWT-based authentication and role-based access control (RBAC) to the UI for secure multi-user dashboards.
- Deployed the React frontend to production on AWS EC2 (Ubuntu), configuring environment variables and security groups for production-ready hosting.

- Cut manual deployment time by 60% by automating the CI/CD pipeline with GitHub Actions and shell scripting.
- Improved database query performance by ~35% by redesigning PostgreSQL schemas and implementing targeted indexing to speed up data feeding the UI.
- Delivered consistently on sprint commitments in an Agile environment through daily stand-ups, peer code reviews, and sprint retrospectives.

Web Design & Development Intern **Aug 2022 – Feb 2023**

SV Mind Logic, Nipani

- Built a full-stack online medicine e-commerce platform using HTML, CSS, JavaScript, Bootstrap, PHP, and MySQL, from database schema through UI.
- Designed a relational database schema for product catalog, inventory management, and customer order processing.
- Implemented secure server-side business logic and session management using PHP on an Apache server.
- Reduced page load time by optimizing asset management and delivering responsive, cross-browser-compatible UI components.

PROJECTS

E-Commerce Platform — React.js / MERN Stack **2025**

- Built a component-based React.js frontend for an online shopping platform with reusable components for product catalog, cart management, and order processing, backed by MongoDB, Express.js, and Node.js.
- Implemented JWT-based authentication on client and server, managing user sessions and protected routes in React.
- Deployed the Node.js backend on AWS EC2 with Nginx as a reverse proxy and AWS S3 for static asset storage.
- Implemented RESTful APIs following best practices for HTTP status codes, input validation, and error-handling middleware.

Underwater Object Detection using YOLOv11 Architecture **2024 – 2025**

- Designed and trained a YOLOv11-based deep learning model for real-time underwater object detection with high precision and recall.
- Published and presented research at the 3rd International Conference on Futuristic Technologies (INCOFT-2025), Feb 2025.

EDUCATION

B.E. in Computer Science and Engineering **2023 – Jun 2026**

K.L.E Technological University, Hubballi

Diploma in Computer Science **2021 – 2023**

C.B. Kore Polytechnic College, Chikodi | Maharashtra State Board

CERTIFICATIONS & AWARDS

- AWS Cloud Practitioner Essentials — Core AWS services training covering EC2, S3, IAM, VPC, and cloud deployment fundamentals.
- Java Programming & Spring Boot — Java back-end development course covering OOP, Collections, REST APIs, and Spring Boot.
- Research Publication — "Underwater Object Detection using YOLOv11 Architecture," INCOFT-2025 International Conference, Feb 2025.
- Internship Completion Certificate — SV Mind Logic (2023), Website Design & Development.
